Professional experience

2018-2019

UDEMX (Formerly MX net) **Kft., Junior web developer**

Project:

The system I have worked on, provided a platform for major hypermarket chains to manage their POS (Point Of Sale) marketing. This supports their processes from start to finish, including production, storage, and, logistics.

My responsibilities:

• Fixing user reported bugs
• Developing new features, on both client and server side
• Optimizing existing processes
• Modifying features as the client requests

Achivements:

During the last two years, I have fixed countless bugs, and managed to substentially increase the performance of some of the most critical modules.

Studies

2015-2019

University of Szeged Faculty of Science and Informatics, Computer Science

2009-2015

Kosztolányi Dezső Gimnázium, Budapest
